

Hi Watonga residents,

My name is Mark Armen, founder and CEO of Replenish. We are excited for your community to launch with Replenish and to help you keep your material out of the landfill. I want to provide some info on Replenish, what we do, why we're doing this and where we need your help:

Replenish is a California-based technology company that works with:

Brands - Brands commit to recovering materials and rewarding members

Hosts - Anyone can become a host and monetize materials from their community

Members - Members of the community bring materials to hosts

The City of Watonga is becoming a Replenish Host by opening a drop off location at 313 East Second Street. The location is open to everyone and please be sure to check the hours of operation and accepted materials. Please see back for details.

You, as members, can participate by collecting your material and bringing it to the City's location or another host location. Additionally, for those who would like to earn rewards from our brand partners, please download our app, which you can use to check-in when dropping off your material to earn rewards.

Download the App:

<https://replenish.app.link/download>

The City is hosting a launch event on February 19th from 9am-1pm, we look forward to seeing you there. Start saving up your materials and please bring your material separated by type!

Launch Event:

Where: 313 East Second Street

When: Saturday, February 19th at 9am-1pm

Please sign up and learn more here:

Accepted Materials

City of Watonga Dropoff

313 East Second Street • Tues 7a-10a • Thurs 3p-6p

PET #1 Containers

Plastic

PET #1 Thermoforms

Plastic

HDPE #2 Containers

Plastic

Aluminum Containers

Metal

Steel Cans

Metal

Cardboard (OCC) & Chipboard

Paper

Why separating materials is important

Separating by material type eliminates the need for expensive sorting machinery, allowing this to be a cost-free program to the community.

Cleaner non-mixed material also means brands can reuse them to make new products and packaging, instead of going to the landfill.
